

2022 CAMP THEMES

ALOHA SUMMER

Greet this summer with island fun! Campers will put themselves on island time this week as they participate in sand art, Limbo competitions, Hula Hoop games and more.

MAD SCIENTIST

Grab your lab coat and goggles and let's spend the week exploring all things SCIENCE! Take a trip to our laboratory and find out where the magic happens! Launch rockets, drop eggs, and maybe even make some coke explode!

H2 OH YEA!

Spend the camp week with all things water! We will have water field games, water balloons, water tables and more! Not only will we get to enjoy the swimming pool, but we will also get to play games like Water balloon baseball, water kickball and more!

VIDEO GAMES COME ALIVE

You've played the games, now it's time to bring them to life! Let's spend the week playing all of your favorite video games in real life! Video Games Come Alive is based on strategy, teamwork, creativity and fun. This is tech free week and no video games will be played.

SUPERHEROES

Attention all citizens of Y-Ville! We are in need of some super hero help! Spend the week learning how to "Save the Town" with super hero games, activities and more!

HOLLADAZE

If you think "the holiday season" goes by fast, you haven't seen this week at camp! One day it's Easter, then the next day it's Thanksgiving, then St. Patrick's Day, and then all of a sudden it's Christmas! Campers may not be able to keep track of what day it is but they'll enjoy a different holiday each day of the week.

WORLD OF GAMES

In 2022 the World Games will come to Birmingham and games of the world will be coming to the YMCA Day Camps! Learn about global cultures, their favorite games, and see what it's like to play games like FloorBall, Ultimate, and KorfBall.

SHARK TANK

Campers will experience a camp-wide event, Thingamajig, where they will see and learn about various STEM experiments and projects. During this week, they'll learn the science behind things like volcanoes, make their own GAK slime, and present their own inventions at our *in-house THINGAMAJIG INVENTION CONVENTION*.

PIRATE WEEK

Batten down your hatches, hoist the mainsail and put on your nicest eyepatch as you pair up with your best mates for a week filled with pirate-themed games and crafts. And just remember: when you're searching for buried treasure, Y marks the spot!

COLOR CRAZE

Color Week is not really a war, more like five days of ridiculous and color-coded FUN! The entire camp is split into teams, with a reveal on Monday of which team they are on! The teams compete against each other in challenges and events to earn points. Teams will create banners, songs, cheers and mascots to promote their camp pride and represent their team! All of this fun is captured and replayed during an end of camp slideshow during the closing ceremonies.
